## VHF NFD Volunteers 2/3 July

As the weather starts to warm up and we all start to think about getting out & about more, here in the Amateur World we are gearing up for our trip up the top of the South Downs for VHF NFD. For us to do this we need volunteers firstly to

join together on one or two evenings to do some cutting back. I have provided photos inside this newsletter from one of our successful evenings.

We then need many volunteers to not only set up & breakdown but you

are needed for operating during Saturday pm & Sunday am.

If we are not to break camp we need at least 2 that are willing to sleep over as well!

With the age of our membership do we do this event?

## BIRTHDAY PARTY at JACK & JILL

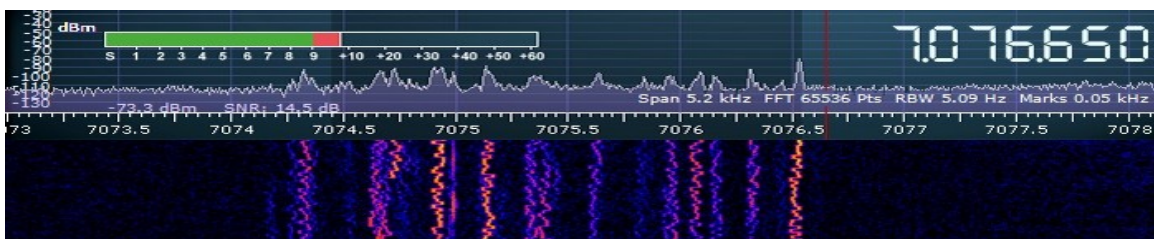

On June 10th it is our yearly celebration on top of the South Downs. Here we let our hair down. We do some radio. If you would like some form of snacks that evening you are welcome to bring some along to share. After we have had enough radio we go to the alternative Jack & Jill for a drink, Tea, Coffee or an Alcoholic beverage.

## **FOX HUNTING SEASON 15TH July**

Our first Fox Hunt this year is on July 15th & we will be looking forward to this as we have had very few.

If you are new to this & would like to get more involved in this side of the hobby you are welcome to come along with one of our members to see how it is done.

There is also, if you go

on to our website & type in Fox Hunting you will find a beginners guide on how to do this fantastic, fun side of Amateur Radio.

We always end the evening very near a pub, so for those that don't drink there is always Tea or Coffee nowadays.
